Classic Exposed Hammer Coach Gun: Your Trusted Companion for Home Defense and Cowboy Action.

Our Classic Exposed Hammer Coach Gun combines historical charm with modern reliability. Designed for cowboy action enthusiasts and homeowners seeking dependable defense, this coach gun is a symbol of craftsmanship and performance.

Features:

- 1 Traditional Exposed Hammers: Provides an authentic experience for cowboy action shooting.
- 2 Robust Construction: Made with high-quality steel and a durable wooden stock.
- 3 Optimized for Home Defense: Short barrel for maneuverability in tight spaces, with a double-barrel for rapid response.
- 4 Aesthetic Appeal: A stunning combination of polished metal and finely crafted wood.

The Classic Exposed Hammer Coach Gun is more than just a firearm; it's a link between past and present, offering reliability and a touch of history with every shot. Ideal for both competing in cowboy action events and ensuring home safety, it stands as a symbol of heritage, dependability, and strength.

Khan Arms introducing the Signia;
Power and Performance Delivered in Style...

Signia is engineered for reliability and versatility utilizing the latest cutting-edge technologies. At the heart of Signia is its advanced gas operating system, ensuring smooth cycling and reduced recoil even during rapid follow-up shots. With its precise CNC machined lightweight Aluminum 7075 Receiver and deep drilled chrome-lined 4140 Steel Barrel, Signia combines durability with superior handling balance.

Built to excel in any environment, Signia ensures flawless operation even under tough cold and wet conditions. Its ergonomic stock and adjustable LOP features provide a tailored fit for ultimate comfort and control. Esthetic and futuristic lines of Signia are accompanied by a stylish, and practical at the same time, enlarged bolt handle and release button.

Whether you're in the field chasing your game, or breaking clays in the range, Signia is your trusted stylish companion ready to deliver best performance when you pull the trigger. Available in fine Turkish Walnut, Gold inlayed Engraving, Synthetic, Camouflage and Cerakote® versions.

Khan Arms presents the ultimate inertia system semi-automatic shotgun!

Developed and perfected after thousands of R&D hours and thousands of rounds, MATRIX guarantees high performance shooting in style. Simplified construction of inertia system distribute forces optimally to maximize consistency and reliability with all types of ammunition. Strong but lightweight system components and materials ensure a well-balanced handling and durability at the same time. Since there is much less pressure loss compared to gas-operated systems MATRIX has a stronger impact and penetration on the target.

Simple, reliable, clean, easy to maintain system of MATRIX, combined with eye catching esthetic details and practical user-friendly features, makes it the ultimate semi-automatic shotgun you need !

PXS is the petite and elegant pump-action shotgun line built on a true .410 frame by Khan Arms.

PXS receivers are precisely CNC machined from AL.7075-T6 alloy and finished with anodization. 4140 Steel barrels are chrome plated for enhanced performance and durability. PXS's petite structure and featherweight alloy receiver makes it one of the lightest shotgun in the world market today! Fine Turkish walnuts and attention to cosmetic details enrich the elegance of PXS. Available in .410 Bore-3"Chamber, with compact & super compact size options.

DUO-SYS offers the option of converting between Semi-Auto / Pump-Action operation modes in a matter of seconds.

This allows reliable cycling of special purpose , ammunitions such as low-pressure less-lethal rubber shots and tear-gas projectiles. Force versions feature a stock with grip, adjustable ghost-ring rear sight and picatinny rail on receiver, high-post fiber optic front sight.

Available in 12GA-3" and various color/camouflage options.

**Khan Arms Magazine-Fed 12 GA Shotgun...
Power, Speed, and Versatility...**

Designed for tactical performance and reliability, the Khan Arms Magazine-Fed 12 GA Shotguns deliver fast, seamless reloading with its detachable box magazine. Built to handle intense shooting scenarios, this shotgun features a robust gas-operated system for smooth cycling and reduced recoil. Its durable lightweight aluminum receiver, ergonomic design, and its adjustable stock options as "foldable and/or collapsible" ensure both comfort and control.

Ideal for home defense, tactical use, or range shooting, this shotgun offers rapid-fire capability and modular flexibility with a variety of magazine capacities and barrel options. The Khan Arms Magazine-Fed 12 GA shotguns are ready for any challenge where performance meets reliability.
